"I"'s Type of Museum

Ami Art Museum

Ami Art Museum is a place where writer Park Giho and installation artist Gu Hyunsook renovated a closed rural school. The outdoor sculptures and installation art are displayed in the outdoor exhibition which is utilized as a nature learning center. There are five exhibition rooms, which are usually utilized as a permanent exhibition hall and to hold an exhibition, and four studios are used as a studio for residence writers and a studio for exhibitions and all events held at the museum. Ami Art Museum is full of spaces where you can spend some time alone quietly and comfortably.

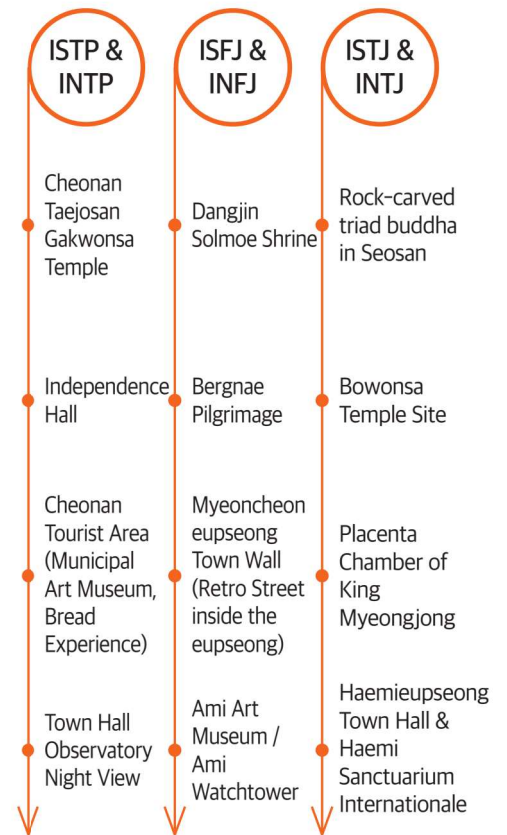

The closed school space is entirely an art museum, so it is good to look around as if you take a walk quietly.

There are some free trials. Please check the website.

While walking, a trip to Gongju

Jemincheon

Don't worry even if you come on a trip to Gongju without a plan. First, you can go to 'Jemincheon'. Jemincheon is the clean stream of water in Gongju that leads to Geumgang River, and the area near Jemincheon served as the center of Gongju and Chungnam from Baekje Dynasty to Joseon Dynasty, the Japanese colonial era and the modern era. When you take a walk along Jemincheon and turn the corner of an alley, a gallery, a local bookstore, etc. appear and an outdoor museum can be seen everywhere. The historical places such as Daetongsa Temple Site, Chungcheong Gamyong, the old Eup office, etc. and modern buildings such as Jeil Church, Jungdong Cathedral, Pulgokt Literary Museum, etc. are located around Jemincheon.

There are pretty cafes around Jemincheon and when the weather is good, a flea market is also open.

Pulgokt Literary Museum is a place where a poet Na Taeju gives a lecture for writers, literary aspirants and visitors and chats with them.

Meet the desert at the sea

Sindu-ri Coastal Dune

As the best dune in South Korea, Sindu-ri Coastal Dune has the wide sands that spread out like a desert.

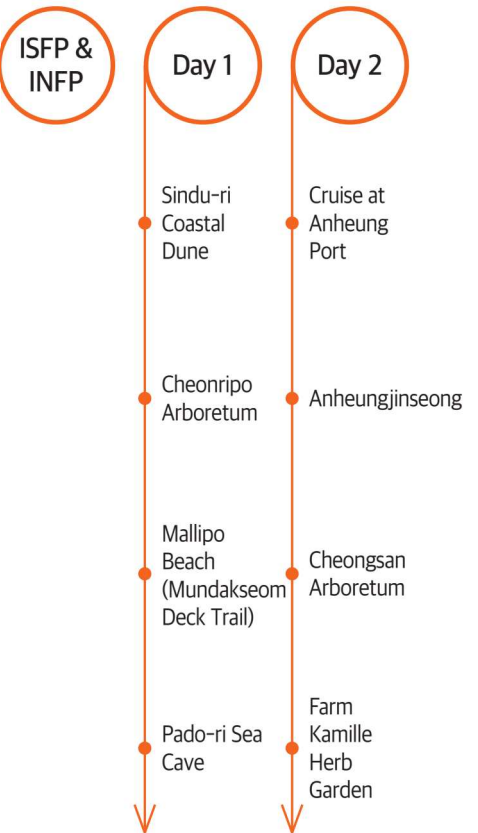

The coastal dune is estimated to have been formed gradually about 15,000 years ago after the ice age, and over a long period of time, sand has been carried by strong winds and waves to the coast, forming a sand dune.

the exotic scenery, I've never thought that I can see a desert at the sea.
With good walking courses, it is good for walking. There is an experience program for children at the nearby Sindu-ri Sand Dune Center.

Run and Fly while looking at the sea

Daecheon Beach Sky Bike/Zip trek

If you want to do something other than looking at the sea in Daecheon, we recommend marine activities. Korea's first marine sky bike is a 2.3km round-trip sky road from Daecheon Beach to Daecheon Port, which is perfect for making good memories with lovers, friends and families. The zip trek has a height of 52m and a riding distance of 613m and you can slide down over the sea with your body attached to one rope. You can enjoy a desire to fly, thrill and pleasure.

- # If children or the old and weak ride a bike, they should be accompanied by at least 2 guardians.
- # Do you know what it feels like to fly over the sea? You must try it.

Towards your dream with the universe

Chilgapsan Observatory Star Park

As the Korea's only observatory in a provincial park, the observatory star park is an astronomy and space theme science museum where you can see the clear night sky in the clean nature of Cheongyang. You can observe the night sky in Cheongyang more clearly with a large refracting telescope and can see and experience the universe including stars, planets, nebulae, star clusters, etc. with a small telescope in an assistant observatory room.

Since it gives a description upon observation, it is more interesting.

If you visit in the daytime, you can observe sunspots.

Seokjangni Museum

Seokjangni Museum is the first paleolithic museum in South Korea established at the first paleolithic excavation site in the country.

Based on 13 academic excavations and research results from 1964 to 2010, it systematically displays our prehistoric culture in an easy-to-understand way. There are children's experience programs, so it is good to do with children.

- # There are restorations of prehistoric persons all over an outdoor exhibition, and they are fantastic.
- # Good place for kids to play around, there is a slide and you can freely go into a makeshift house.

Gongsanseong Fortress

Gongsanseong Fortress, the UNESCO World Heritage and the capital of Baekje in the Woongjin Era, is beautiful at night. If you walk along the fortress, you can see the whole area of Gongju at a glance. During the Baekje Cultural Festival, you can cross a floating bridge to Geumgang Singwan Park in front of Gongsanseong Fortress and enjoy the majestic 'Woongjin Fortress Gate Guard Shift Changing Ceremony' of the Baekje Kingdom at Geumseoru Gate and the night sightseeing of Gongsanseong Fortress at Geumgang Singwan Park.

There is an easy-to-walk path along the fortress, so it is perfect for family picnic.

If you look down from Gongsanseong Fortress, you can see the beautiful Geumgang River.

It is good to go both in the daytime and at night.

Gunnamji Pond is a place with the legend of Seodongyo about Mu of Baekje, who married Princess Seonhwa of Silla. Gunnamji Pond where the island was created in the middle of the pond to express Taoist ideology is the best artificial garden in South Korea, a beautiful tourist attraction in all four seasons. Seodong Lotus Festival is held in July and Gutteurae Chrysanthemum Exhibition is held in October to November, which makes Gunnamji Pond more beautiful.

The beautiful night scene, it is the representative date course in Buyeo.

I went to Buyeo Seodong Lotus Festival. You can see a variety of lotus flowers across the world.

Sunshine Studio

Sunshine Studio is a drama theme park created by Nonsan-si and the production company of the drama 'Mr. Sunshine', the only place in South Korea where the landscape of Hanseong at the time of enlightenment in the early 1900s was recreated. The props, costumes, etc. actually used in the drama are displayed as they are all over the studio, so it seems like drama characters will suddenly appear. After looking around Sunshine Studio, move to Studio 1950 and enjoy your own time travel while enjoying romance at that time.

If you are a fan of Mr. Sunshine, you must come. Even otherwise, please go.

If you borrow clothes and go, it is twice as fun. Let's go and take pictures.

The most beautiful cathedral in the world

Gongseri Cathedral

Gongseri Cathedral, a historic cathedral with a 123-year history, is Chungcheongnam-do's Designed Monument No. 144 and the most beautiful cathedral representative of South Korea. Gongseri Cathedral is famous as a filming location for movies and dramas and until now, at least 70 works have been filmed. The most famous works include TaeGukGi: Brotherhood Of War, You're Beautiful, etc.

The main cathedral is fantastic. I couldn't believe it was built 100 years ago.

It is a meaningful place that enshrines 32 martyrs who were sacrificed during Byeongin Persecution.

Love Tree with a romantic name is zelkova tree that stands in Seongheungsanseong Fortress in Buyeo. Love Tree, which is over 400 years old, is a once-in-a-lifetime photo zone that cannot be missed when traveling to Buyeo. If you park a car at the Seongheungsan Parking Lot and climb a mountain, you can see people lining up to take pictures under the tree.

It became more famous as a filming location for Seodongyo, Hotel Del Luna, Alchemy of Souls, etc.

It is worth standing in line. You can get a real once-in-a-lifetime photo.
I went to take pictures at sunset and I really like it. Don't forget to reverse the left and right of photos and complete a heart.

Cheongsan Arboretum

A filming location for 'Crash Landing on You', the drama that shook South Korea in 2020.

The plants in Cheongsan Arboretum amount to 200 species of lotus flowers and water lilies, 100 species of aquatic organisms and 300 species of trees and wild flowers.

You can experience the arboretum in a more special way with Photinia Glabra Festive in spring and Pampas Festival in fall.

The pampas grass reeds are really pretty. Some couples even took wedding photos in front of it.

It is really good to go with dogs. Recommended for dog lovers!

(Mud Beer)

Daecheon Brewery is a brewery that produces Boryeong Mud Lager, the first local craft beer in Boryeong. On a main brewery tour, you can see how beer is made by using Boryeong mud as a main ingredient and taste freshly brewed craft beer. An advance reservation is required and those aged 7 and older can participate. It takes about 30 minutes.

After a brewery tour, I ate pizza and mud lager at the main store, and it was crazy.

During a tour, they check an ID card while you taste beer, so you must bring your ID card.

Unrefined rice wine that even a president drank

Shinpyeong Brewery

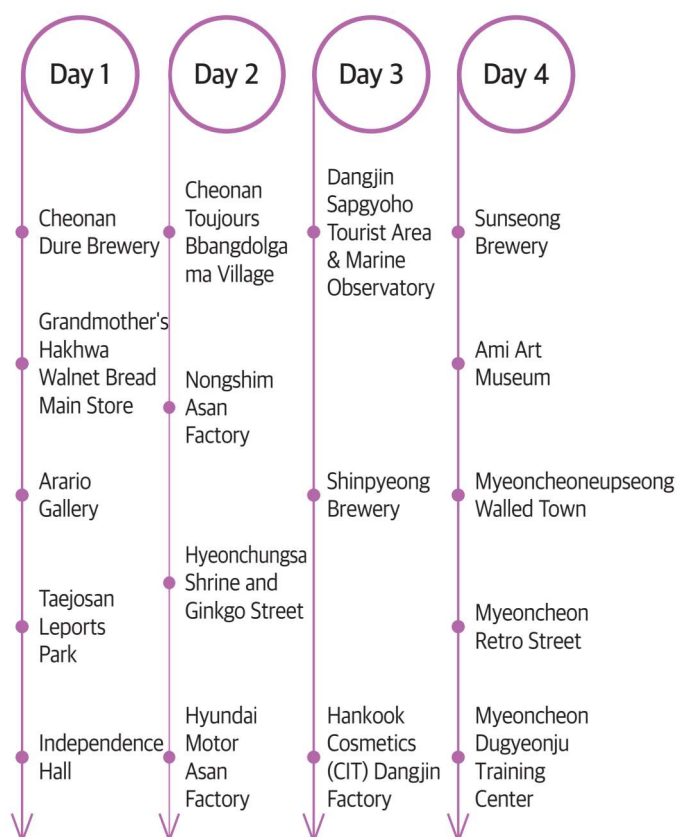

Founded in 1933, Shinpyeong Brewery is a traditional brewing culture company that brews and produces liquor with the old brewery's craftsmanship and inherits and develops Korea's modern and contemporary brewing culture. It produces liquor with a clean taste by using Dangjin rice as a main ingredient. Its 100-year Draft Unrefined Rice Wine was also selected as dinner drink for Blue House.

There is also a brewing culture center, so you can learn the brewery history at a glance.

Available for applying for a class for brewing lotus leaf wine and an unrefined rice wine sommelier class online.

Pope, how does Dugyeonju taste like?

Myeoncheon Dugyeonju Training Center

As traditional liquor produced according to the old tradition, Myeoncheon Dugyeonju is known for the taste of famous liquor that has been handed down for 1,000 years, and it is National Intangible Cultural Heritage No. 86-2 and was used as a dinner drink when Pope Francis visited Solmoe Shrine. Myeoncheon Dugyeonju Training Center is a place where people learn the history of Myeoncheon Dugyeonju and make Myeoncheon Dugyeonju themselves.

It is liquor made by using Amisan azalea flowers as a main ingredient.

The alcoholicity is 18%, which is the highest even among domestic traditional liquor.

Jukdo Island

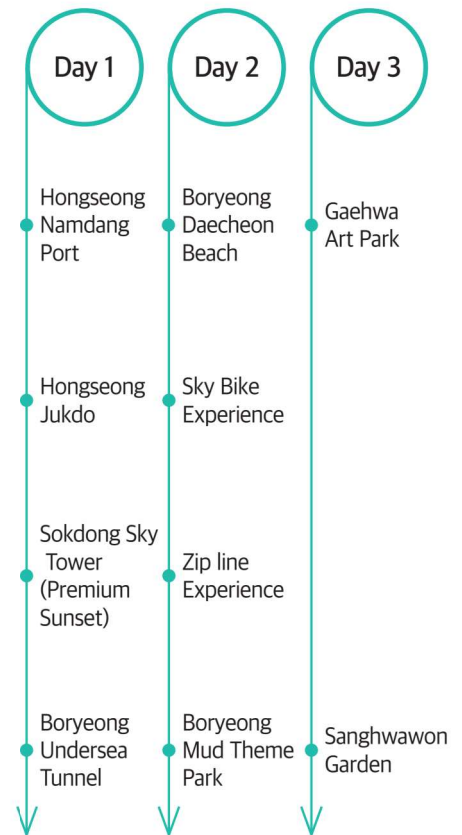

Jukdo Island, the only inhabited island in Hongseong-gun, gets its name from the abundance of bamboo that grows naturally around the island. It is easily accessible, just a 15-minute boat ride from Namdanghang Port, and serves as a natural haven where romance and nature remain perfectly preserved, offering the ultimate retreat for travelers seeking to immerse themselves in serene natural surroundings.

Nanji Island Beach, recommended by Sugar from BTS, is one of the most secluded beaches in the country. If you want to take a walk, you can climb a mountain or walk a trail. Nanji Island, called the East Sea of the West Sea due to its clean water and fine sand, is a family travel destination where you can enjoy an experience together including fishing and digging clams.

After taking a boat for about 10 minutes, you can arrive at Sonanji Island.

The boats are operated at different times in summer and winter, so be sure to check it.

Ongdo Island

In 2007, Ministry of Oceans and Fisheries selected the lighthouse of Ongdo Island as one of 'the 16 beautiful lighthouses in Korea'.

As an island that any outsiders have not visited for about 100 years, Ongdo Island was opened to the public in 2013, and now, you can take a cruise to visit the island.

If you arrive at the island and climb up the island for about 10 minutes, you can reach the top.

You must take backlighting photos in the cave while focusing on the scenery outside the cave.

It is better to think about poses in advance before taking pictures.

If you want to take pictures in Pado-ri Sea Cave, you must check the tide and go at ebb tide.

To the left of the traveler is a large, striped suitcase on wheels, and to the right is a smaller green suitcase. The scene is decorated with small blue birds, a pink signpost with a wavy line, and large, stylized orange flowers in the corners. Tomb of King Muryeong is the tomb of the 25th King Muryeong and Queen Consort of King Muryeong of Baekje, and is the only royal tomb where the owner of the tomb was identified among the ancient tombs for the period of the Three Kingdoms. It was accidentally discovered during drainage construction in 1971 and was revealed after 1,500 years.

Magoksa

Magoksa is the representative temple in Chungnam and the UNESCO World Heritage Site.

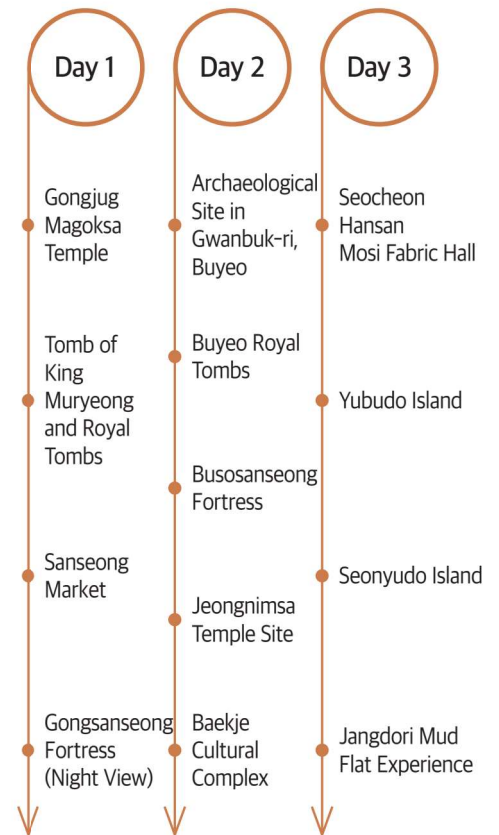

It was called 'Chunmagok' because its scenery in spring is especially beautiful and it was also called 'Nambanghwaso' because it produced monks who painted Buddhist paintings from generation to generation. Magoksa also has a deep connection with fighter for independence, Baekbeom Kim Koo. A juniper he planted stands in front of Baekbeomdang where he stayed.
